PROFESSIONAL SUMMARY

M.Sc. Data Science & Analytics student with practical experience in Python Development, Data Analysis, SQL, Data Visualization and Machine Learning. Gained hands-on exposure through internships and academic projects involving data handling, process automation, exploratory analysis, dashboard development, and predictive modeling. Proficient in working with tools and technologies such as Python, SQL, Excel, Power BI, Tableau, Git, GitHub, VS Code and PostgreSQL. Demonstrates a strong foundation in analytical thinking, problem-solving, and technical skills, with the ability to learn and adapt to diverse professional environments.

EDUCATION

M.Sc. Data Science & Analytics **July'2025 - Present**
School of Data Science & Forecasting ,DAVV Indore
B.sc Computer Science **July'2022 - June'2025**
Holkar Science College, DAVV Indore

WORK EXPERIENCE

Python Developer Intern | Firstroot Solution Private Limited, Indore **Apr 2025 – May 2025**

1. Developed and maintained Python scripts for CMS Test File Automation.
2. Automated data and document handling processes using Python to reduce repetitive manual tasks.
3. Worked with structured test files and implemented scripts for file processing, data handling, and automation workflows.
4. Performed data processing and organized files according to the requirements of the CMS automation workflow.

Computer & Office Operations Intern | Charisma – Your Source of Confidence **Feb 2024 – Dec 2024**

1. Managed and maintained office records, documents, and computer-based data using MS Word and MS Excel.
2. Performed data entry and data updating while maintaining accuracy and consistency in records.
3. Prepared and formatted documents, reports, and office files according to requirements.
4. Used MS Excel for organizing, updating, and maintaining structured data.
5. Created and edited presentations using MS PowerPoint for office-related requirements.
6. Maintained and organized digital records to support day-to-day office operations and documentation

PROJECTS

Sales Data Analysis — Tech Stack: Excel, Power BI, DAX, Power Query **Sep 2025 – Oct 2025**

- Analyzed sales data to identify sales trends, product performance, and key business insights.
- Cleaned and transformed data using Power Query and created interactive dashboards using Power BI, Excel, and DAX.

Customer Churn Analysis — Tech Stack: Python **Jan 2025 – Feb 2025**

- Performed data cleaning and Exploratory Data Analysis (EDA) to identify patterns related to customer churn.
- Analyzed customer characteristics and built a churn prediction model using Python.

House Price Prediction — Tech Stack: Python, Pandas, Scikit-learn **Feb 2026 – Mar 2026**

- Cleaned and prepared housing data and performed Exploratory Data Analysis to identify factors affecting house prices.
- Built a Linear Regression model using Scikit-learn and evaluated its predictive performance.

Healthcare Data Visualization Dashboard — Tech Stack: Power BI, Tableau **Apr 2026 – May 2026**

- Analyzed healthcare data to identify public health trends and disease recovery patterns.
- Created interactive dashboards using charts, filters, and slicers in Power BI and Tableau for clear data visualization.

SKILLS SUMMARY

Languages: Python (Pandas, NumPy), R Programming, SQL
Frameworks: Scikit-learn
Tools: Git, GitHub, VS Code, Microsoft Excel, Power BI, Tableau, Power Query, pgAdmin4,Oracle
Platforms: Jupyter Notebook, Google Colab
Skills: Data Cleaning, Data Validation, EDA, Statistics, Dashboard Development, DAX, Machine Learning, Predictive Modeling

CERTIFICATES

• Junior Software Developer — Skill India
